# A blood bank information system designed for your success

## Safeguard Your Patients

Continuously assure patient safety, product quality, and regulatory compliance throughout the blood management process with our FDA 510(k) cleared device, WellSky Transfusion.

## Increase Visibility

Our web-based platform creates the level of visibility you need to deliver ideal outcomes. View all operations at a glance, while maintaining access to detailed patient-level information.

## Improve Efficiency

WellSky eliminates duplicate efforts in the blood bank and at the bedside. Blood bank management system integrations automate orders and test results, update product status with EMRs, and exchange information with lab information and blood donor systems.

WellSky Transfusion has been tested and proven at hundreds of facilities around the world.

## Expand the power of WellSky Transfusion.

A one-of-a-kind teaming agreement allows Epic and

WellSky to work closely together to improve efficiency and patient safety. The partnership optimizes blood bank operations, accelerates end-clinical and administrative tasks, accelerates
