

ENERGY

HAUGLAND ENERGY

Haugland Energy is an affiliate company of Haugland Group, providing turnkey construction maintenance for all phases of electrical power generation, transmission, distribution, and substations. We employ a team of industry leading executives, project managers, estimators, welders, splicers, and linemen with decades of energy infrastructure experience.

**Innovative Energy Solutions for All Public and Private Sector
Clients in the Northeast United States**

We maintain our position at the forefront of the industry by harnessing our capabilities and leveraging the experience of our team. This allows us to perform complex electrical operations, while maintaining excellence in safety and environmental stewardship. We pride ourselves on developing innovative and effective solutions for all major public and private sector clients throughout the northeast region. Our capabilities can be seen on notable projects, including the 54 MW power generation facility which we built, own, operate and maintain on Eastern Long Island.

The Ability to Handle Multidiscipline Projects by Partnering with Other Haugland Group Companies

We maintain a distinctive competitive advantage in the industry through our strong relationship with sister company, Grace Industries, which provides heavy highway, bridge, boardwalk and airport (runway/taxi way) construction, as well as, earthwork, drainage and other heavy/civil services, allowing us the unique opportunity to handle projects with a comprehensive, multidisciplinary approach.
