13mm NovaPure Bromobutyl 4023/50 Serum Stoppers

Qty. 1,000 stoppers/carton

NovaPure™ serum stoppers made from 4023/50 a premium quality bromobutyl elastomer with West's lowest particulate specification available. Laminated with FluroTec™ barrier film to help reduce particulate, limit drug interaction with the elastomer and reduce leachables. These components are provided ready to use, sterilized and 100% vision inspected via our Envision™ inspection process. This stopper configuration can be used with European blowback, North American blowback, or straight wall (no blowback) vials. West item number: 19700360
