Security from TotalAV

Encrypt your Browsing, Boost your Privacy Online Today

With just one click you can encrypt your web usage, keeping your browsing habits and personal information private.

[Get Protected Now](#) →

(<https://signup.totalav.com/auto/signup>).

Compatible with your PC

One-Click to a Safer Internet

Whether you're shopping, paying bills, socializing, or accessing emails, staying safe online is our top priority.

Encrypt your connection

Leave no digital footprints, making your activities anonymous and impossible to track.

No more DNS leaks

Maintain full anonymity even if your internet connection is interrupted with our VPN killswitch.

Your Data, your rules

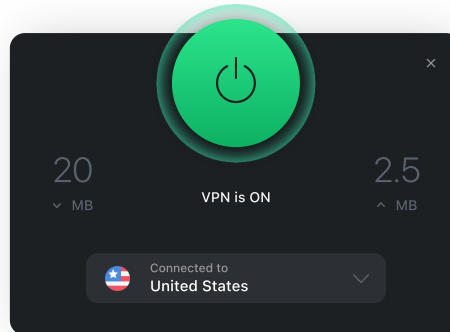

With OpenVPN and IKEv2 protocols available, you can tailor for increased privacy or better speeds.

Stay private on-the-go

Whether you're at home or on the move, our desktop, smartphone & tablet apps will keep you protected.

Online privacy has never been so easy or so accessible

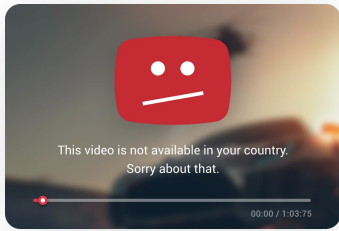

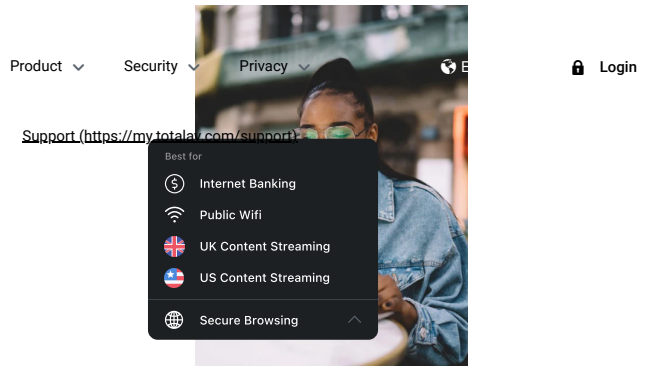

Stay safe and secure on Public Wi-Fi

Public Wi-Fi is vulnerable

Instantly secure open Wi-Fi networks, preventing snoopers & hackers from accessing your priceless information.

Use a VPN on-the-go

Data protection doesn't just stop at home – extend your anonymity all the way with our iOS & Android apps.

Access Geo-Restricted Websites and Content

Worldwide server network

Accessing your most important content is effortless, with over 35 country locations available around the globe.

Uninterrupted streaming

Whether you're away on vacation or are travelling for work, you can access your favourite shows and streams, interruption-free.

70+ Super Fast servers in over 30 countries worldwide.

Real-Time Protection from Viruses.
