A specialty pharmacy distributes medications for people with serious health conditions requiring complex therapies. The complexity of these medications may be due to the way they are administered, their side effects, or the conditions they treat. As you go through the prescription process, remember your Nurse Ambassador is here to help. Get in touch by calling **1.866.SKYRIZI** (1.866.759.7494).

**Where can I find information about the insurance process?**

**My insurance has changed. Now what?**

**What if I recently lost my insurance coverage?**

**What if I can't use my Skyrizi Complete Savings Card<sup>†</sup> at my pharmacy?**

**Is SKYRIZI covered by Medicare or Medicaid?**

**How will my Nurse Ambassador contact me?**

**Chat 24/7**

**Does any of this cost me anything?**

or government-funded healthcare program, patient will no longer be able to use the Skyrizi Complete Savings Card and patient must call Skyrizi Complete at 1.866.SKYRIZI to stop participation. Patients residing in or receiving treatment in certain states may not be eligible. Patients may not seek reimbursement for value received from the Skyrizi Complete program from any third-party payers. Offer subject to change or discontinuance without notice. Restrictions, including monthly maximums, may apply. Patients who are members of insurance plans that claim to reduce or eliminate their patients' out of pocket co-pay, co-insurance, or deductible obligations for certain prescription drugs based upon the availability of, or patient's enrollment in, manufacturer sponsored co-pay assistance for such drugs (often termed "maximizer" programs) will have an annual maximum program benefit of \$6,000.00 per calendar year. This assistance offer is not health insurance. To learn about AbbVie's privacy practices and your privacy choices, visit [www.abbvie.com/privacy.html](http://www.abbvie.com/privacy.html)

## USES

SKYRIZI is a prescription medicine used to treat adults:

- with moderate to severe plaque psoriasis who may benefit from taking injections or pills (systemic therapy) or treatment using ultraviolet or UV light (phototherapy).
- with active psoriatic arthritis (PsA).

## IMPORTANT SAFETY INFORMATION

**What is the most important information I should know about SKYRIZI® (risankizumab-rzaa)?**

**SKYRIZI is a prescription medicine that may cause serious side effects, including:**

**Serious allergic reactions:**

- Stop using SKYRIZI and get emergency medical help right away if you get any of the following symptoms of a serious allergic reaction:
  - fainting, dizziness, feeling lightheaded (low blood pressure)

- shortness of breath
- blood in your mucus (phlegm)
- muscle aches
- warm, red, or painful skin or sores on your body different from your psoriasis
- weight loss
- diarrhea or stomach pain
- burning when you urinate or urinating more often than normal

**Do not use SKYRIZI if you are** allergic to risankizumab-rzaa or any of the ingredients in SKYRIZI.

**Before using SKYRIZI, tell your healthcare provider about all of your medical conditions, including if you:**

- have any of the conditions or symptoms listed in the section “What is the most important information I should know about SKYRIZI?”
- have an infection that does not go away or that keeps coming back.
- have TB or have been in close contact with someone with TB.
- have recently received or are scheduled to receive an immunization (vaccine). Medications that interact with the immune system may increase your risk of getting an infection after receiving live vaccines. You should avoid receiving live vaccines right before, during, or right after treatment with SKYRIZI. Tell your healthcare provider that you are taking SKYRIZI before receiving a vaccine.
- are pregnant or plan to become pregnant. It is not known if SKYRIZI can harm your unborn baby.
- are breastfeeding or plan to breastfeed. It is not known if SKYRIZI passes into your breast milk.

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

### What are the possible side effects of SKYRIZI?

SKYRIZI may cause serious side effects. See “What is the most important information I should know about SKYRIZI?”

**Chat 24/7**

The most common side effects of SKYRIZI include upper respiratory infections, feeling tired, fungal skin infections, headache, and injection site reactions.
