# Why did we change our name from Hire Llama to Awana

When we initially started as Hire Llama we knew we wanted to help people connect. Our experience

Awana means “weaving loom” in the Kichwa language, and we chose this name to strengthen our belief that when we work together, there are no limits to what we can accomplish.

We continue to evolve the way U.S. companies grow their engineering teams by matching them with outstanding talent from LATAM.

Today we become Awana.
