

Description Specifications About Molecule Delivery & Shipping Warranty

Product Benefits

Cooling Technology Breathable Hypoallergenic

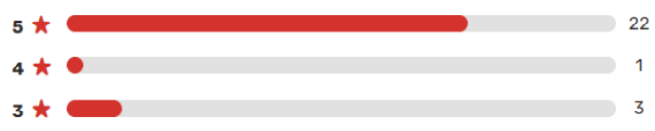

"MOLECULE is trusted by elite athletes, including Russell Wilson, Alex Morgan, and Michael Phelps, to optimize their sleep and perform at peak levels. Improve your sleep quality and prevent the growth of damaging bacteria and fungus with the MOLECULE CopperWELL™ Foam Pillow. The cover features copper-infused fabric and a MOLECULEshield™ antimicrobial treatment to protect against bacteria, fungus, mold, mildew, odors, and degradation due to microbial growth. The cool-to-the-touch fiber technology is woven into the pillow's cover, assuring the benefit will never wash out, leaving you comfortably cool every night. The open-cell memory foam fill is blended with traditional foam for the ideal balance of conformity, support, and airflow.
