- GPS walking tracker
- Personalized exercise programs
- Interval walking & speed walking fitness plans
- Sync with Fitbit activity tracker

Use the WalkFit step counter if your goal is to burn calories & track results. The smart algorithm adapts to your walking pace and can count steps.

You can be sure that our walk distance measurement app will correctly monitor your footsteps and make your activities count. Training progress records automatically, so there's no need to count your steps. Easily check your walk time, distance & step count with graphic stats - daily, weekly, monthly.

The app will track distance walked and steps no matter where your phone is. Don't forget that WalkFit has a built-in GPS distance tracker to track outdoor fitness activities on a map.

Dare yourself to increase your daily physical activity and improve endurance & stamina with the WalkFit step counter app. You can also use the app as an activity tracker. Take part in our step challenges, track distance walked, and archive your fitness goals.

#### Walking Fitness Challenges

- Fat burning interval walking
- 7-minute walking for weight loss challenge
- Calorie Killer
- Walk to a better sleep
- 10-minute walk
- Endurance and HIIT
- Outdoor walking exercises
- Indoor treadmill workouts

Let us create a custom plan for you! Walking for weight loss or just looking for a simple pedometer to stay in a good shape? The WalkFit walking step tracker app is suitable for both.

Our experts have prepared a questionnaire to understand your needs better. Just fill in the necessary details & get started on your fitness journey.

- Main goal: improve heart health, get outdoors, or lose weight
- Choose your fitness level
- Target body type: lean, athletic or shredded
- Target muscles: legs, belly, or buttocks
- Choose your bodyweight and fitness goal

Finally, get your personal interval walking plan with our activity tracker app. Walking for weight loss has never been this easy! What's more, the WalkFit walking step tracker algorithm will help you to choose your starting step count. Remember that walking as part of an active lifestyle can reduce stress levels, get rid of negative thoughts, and help you to sleep better.

#### Subscription Info

The WalkFit walking app is an easy-to-follow fitness plan that will allow you to see results quickly. If running is not suitable for you, a weight loss walking approach can be efficient. WalkFit provides you with great opportunities to burn calories and lose belly fat!

How many miles a day do you need to walk to lose weight? The number of miles per day that you need to walk to lose weight depends on your starting point. You can download the individual training app with no money required. To use the walking tracker and have access to all features - e.g., walking distance tracker - we will require a subscription. Choose your fitness goals, start walking for weight loss, and get in shape with the WalkFit walking app.

Walk daily, take part in walking challenge, track your success, and keep your fitness levels up with WalkFit - the walking app for weight loss.

Something is wrong with the app. Progress keeps repeating itself while using the walking plan. Warmup repeated itself, moderate mode and fast mode keep repeating itself and the progress bar while walking goes backwards. I paid for this app, and I don't see what is so great about it. It doesn't offer...

I like the app for what I needed it for. However I just can't take the constant notifications to upgrade. For approximately 8 hours my phone was dinging every 2 minutes. When I turned off notifications the app didn't work. I will not pay you to annoy me. I didn't mind the three month fee so much but...

I like the short term goals based on your weight age etc. I like the notifications during the walk as well as target speed. I don't like that you can't sync it to a device. So the step count isn't 100% accurate. It would seem that it would help your advertising for the app if steps were accurate and

...are accurate and...

103

It works but not worth paying for. It does have different walks that allows you to move up. As everyone says it doesn't sync with anything and has limited capabilities. You have to have your phone stuck to you constantly which I can't so it isn't accurate. I will use it for the walks but I just got ...
