Evolution events!

## E4 EVOLUTION

The E4 Evolution is something you've never seen before, and trust us, if you were unable to join, you will want to check out the recordings! It was a true hybrid event that included live curated coverage of the E4 Experience. And no, it is was not simply streaming live sessions from a show floor or stage. It was a totally unique experience with people on stage that aren't even on stage!

The E4 Evolution included its own tour guides, hosts and curated content intended and optimized so viewers could be there without actually being there.

About

E4v is presented by

E4v connects the AV industry to exclusive online education and inventive solutions for today's most challenging issues in the design and specification of AV systems. The invaluable online event, delivered live, is anchored by curated Solution Centers that address top topics in AV and IT. E4v features live-streamed content, AVIXA-certified education sessions and inventive product features, offering participants multiple ways to engage in real time.
