Engage their mind & no more worrying about your furbaby eating too quickly, causing choking, vomiting, or bloating. Furbaby's must use their sense of smell and natural foraging instincts to hunt for their food in the Forager™ Mat! Designed with comfort in mind, Forager™ Mat uses our proprietary SoftSnout™ material, the softest material available in snuffle mats for dogs, making it perfect for every snack or mealtime and will not irritate furbaby noses, tongues or gums. Our proprietary anti-slide backing was designed to hug the floor to provide a slide-resistant experience to withstand the strongest of noses while foraging! Use Forager™ Mat as a dog food bowl replacement in your home to help encourage slower eating habits, increase food motivation, and give your furbaby a fun, interactive eating experience!

Perfect For:

Trademark

- Mental Stimulation
- Feeding Motivation
- Travel
- Anti Boredom
- Calming & Anti-Anxiety
- Brain Engagement
- Slow-Feeding
- Encouraging Natural Foraging Instincts
- All Life Stages

And More!

### Special Features

#### SoftSnout™

Because we love wet nose kisses, we created our pet-safe SoftSnout™ material to be non-abrasive and non-irritating to furbaby noses, gums, or tongues while they search for their next treat.

#### Nosework Development

Pets use their noses like we use our brains, working through the Forager™ Mat is much like solving an intense math problem, with the reward being a full tummy once solved!

#### Triple Stitched

Dogs love to play hard, so we don't mess around with single stitching. Triple stitched material adds durability and toughness for all foragers!

#### Anti-Slide Backing

Our proprietary anti-slide backing was specifically designed to hug the floor and help to provide a more slide-resistant experience to furbabies while searching for their treats!

#### Washable

Sometimes dogs can't help their sloppy messes. Luckily, the Forager™ Mat is made from easily washable materials, so your customer can quickly and easily wash between meals.

#### A Safer Way To Play

Designed with a curious pup in mind, we made sure that the strap used to easily roll up and store the Forager™ Mat could be secured safely under the mat while dogs forage. Pets won't get distracted and will instead stay focused on the Forager™ Mat!

#### Visual Stimulation

Mimicking a clearing in a forest, our meadows add excitement for any furbaby by creating a jackpot of multiple treat and food pieces to prevent frustration and encourage continued foraging!

#### Food Bowl Replacement

Replace traditional food bowls with our interactive Forager™ Mat for a more permanent solution for feeding problems such as fast eating or feeding motivation.

### For Every Need

## Frequently Asked Questions

### Why does my furbaby need a snuffle mat?

Excited pets, especially dogs, may scarf down food. This can cause several negative effects, like bloating and gastrointestinal issues. A snuffle mat and slow feeder dog bowl can slow down their eating to enable their body to digest their food more properly while helping them to prevent swallowing air, often associated with bloating. Other benefits include less likely to choke, nose-work burns energy helping calm, portion control, entertainment to help combat separation anxiety & mind stimulation to name a few.

### What types of food & treats can you use on Forager™ Mat?

We recommend only using dry food, treats, or dryer veggies like carrots in the snuffle mat. Wet food, raw food, & treats could seep into the fabric. While the liquid & raw food would wash out in the washing machine, it would be stuck in the fabric until you washed it.

### What is the difference between the Meadow Mat and the Forest Mat?

The Forest mat is targeted more towards nose work. It is meant to be more challenging than the Meadow mat by making your pet forage for the food, rather than finding it by sight. The Meadow mat includes blue patches, which gives visual stimulation on top of nose work, as blue is one of the only colors dogs can see. Due to the shorter length of the patches, food naturally falls into them, creating a visual cue and sparking excitement.

### Should I get the Forager™ Bowl or Forager™ Mat?

It depends on your situation! We recommend choosing either Forager™ Mat or Forager™ Bowl based on your furbaby's needs. For an everyday slow feeder, we recommend the Forager™ Mat. For a travel bowl or a once-in-a-while interactive & engaging eating experience, we recommend the Forager™ Bowl that you can pack and store easily in your home!

### How am I supposed to clean the Forager™ Mat?

Knowing that our furbabies aren't always the cleanest eaters, we do recommend washing your Forager™ Mat after using the product a few times! You can find the washing instructions for the Forager™ Mat here: <https://petparentsbrand.com/pages/washing-instructions>.

👍 I recommend this product

### LOVE THIS

This is the best way to feed my pup. I'm wishing I had this sooner as he has always eaten fast but now I'm able to feed him and my 10 yr old dog as the same time and don't have to worry about him finishing earlier and then going after the older dogs food.
