

Perfecta Federal Cyber Training Academy (PFCTA)

Perfecta offers PFCTA Product and Operational Training as a supplement to our full product suite. By engaging in customized, dedicated training programs and resources, users become certified PFCTA practitioners and more effectively conduct their missions using Perfecta's product suite. PFCTA instructors are trained Perfecta employees with relevant product experience and practical expertise.

Tailored Training

Perfecta offers tailored training options via our PFCTA instructors for our suite of strategic and tactical cyber products, including:

- DeckPunch
- Labyrinth
- Tirade
- Lantern
- Orca

By building upon product implementation and use with our mission partners, coursework is under development and refinement for individuals with a variety of cyber skillsets:

- Cyber Operations Specialists
- Software and Network Engineers
- IT and Maintenance Personnel
- Command and Control Leadership

By incorporating best practices from our system deployments, Perfecta's PFCTA modules are enhanced alongside each software and hardware product release.

Best Practice System Deployment

Training Benefits

Perfecta offers PFCTA Product and Operational Training as a supplement to our full product suite. By engaging in customized, dedicated training programs and resources, users become certified PFCTA practitioners and more effectively conduct their missions using Perfecta's product suite. PFCTA instructors are trained Perfecta employees with relevant product experience and practical expertise.

PFCTA resources are in development across our DeckPunch, Labyrinth, Tirade, Lantern, and Orca products. Sample PFCTA modules include:

- Deployment and Implementation by Platform
- Conducting Tactical Cyber Operations in the Field
- Operational Configurations and Deployment Management
- Application Tips and Tricks by Echelon
- Strategic Unified Communications
