pointlist lightweight wonder for a man and his dog. Reviewed in the United States on July 23, 2021 Verified Purchase

I really appreciate the price, light weight, ease of cleaning and versatility relative to the heat sources I have. A 2.25 lb. roast fits nicely in the pot. It will sear meat beautifully on gas or induction and easily fits into the toaster oven tho I haven't cooked anything in this pot in the latter. In the electric oven it transfers heat evenly throughout the interior. No evidence of hotspots and the ceramic surface has not stained at all. I fried chicken in the pot recently. The temperature remained constant, (this over gas,) and the result: perfection. The oil remained in great cooking order as I added or removed a piece from the pot, quickly returning to or remaining

at my chosen optimum temperature for frying. I was cooking skinless, boneless thighs. Those can be tricky as they're worthless over or undercooked. I'm impressed! No need to haul out the cast iron when it's just the two of us. Many air moving tail wags from the dog for the delicious treats coming out of this pot and into his bowl. Happy dog, happy cook. What more can one ask for from a pot?

It's ok. A lot smaller than what the description portrayed. I feel like when I make soups in here it NEVER boils, so I feel like heat doesn't get distributed evenly. I'll keep using though

Product Description

Made with Ceramic, Silicone, and Style

Let's be honest—you wouldn't cook as much if nonstick surfaces didn't make the cleanup easier. But some nonstick surfaces are questionable, scratching and flaking off into your food and exposing the metal. Leave behind toxic pan linings, but keep the easy cleanup. Your ceramic pots and pans set is nonstick, not noxious. Cook with speed thanks to fast-heating aluminum and glass lids with heat-trapping silicone seals.

Top-Notch Materials

Let this become your convenient, everyday cookware set. Your dishwasher safe pots and pans are corrosion resistant, BPA-free, and cast from durable aluminum and steel. Avoid using metallic or scratchy utensils while cooking. For maximum longevity, handwashing with non-abrasive implements is recommended.

A Gift They'll Use

You want to give your special someone some home essentials to support them after their big move, but you aren't sure where to start. How about pots and pans? Give them a central, important piece of any kitchen and home. Set them up to be able to eat healthy meals and stop using dangerously worn out, PFC-shedding pans.

Home Goods with History

Find out why so many well-fed folks love their nonstick cookware sets and kitchen utensils from Hercules Gourmet. Hercules is made by Mundial, a home goods company with over 125 years of experience in making home life easier. Put your trust in pots and pans backed by a longstanding legacy and a dedication to your happiness.

Cook cleaner and clean faster with Hercules Gourmet Cookware.

Purchased for the sole purpose of making omelets. However, upon receipt, I changed my mind and ordered a substitute. This pan may be more useful for cooking a small steak or hamburger. Gifted the product.

I ordered the product because I have one similar to it from a different company. Well I thought they were going to be the same. My other pan can be taken apart but this one can't which makes it hard to clean.
