- Workout Gloves with high-density stereo sponge palm pads in line with ergonomic design can fill the gap between your hands and the fitness equipment. Protect your hands from tear, calluses, and blisters. Play the role of protection and buffer, easing hands strain with great hand coverage, almost all the damaging friction is mitigated.
- The palms weight lifting gloves have honeycomb anti-slip silica points, which can increase friction, enhance grip, and provide stability. The adjustable wristband can reduce the pressure on the wrist and prevent sprains. Wristbands provide better support.
- The back of the gym gloves designed with light and thin fabric can fit well with your hands, providing your hands to breathe freely and feel comfortable while doing intense training, rejecting sweat and smell. Made of durable microfiber, has high wearability.

Please note that due to limitations in photography and the inevitable differences in monitor settings, the colors shown in the photography may not correspond 100% to those in the items themselves.
