As Described

8/2 Update

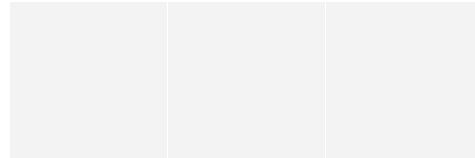

The boards have completely dried from the rain and the damage doesn't look as bad as it once did while wet. Although I do think this is a serious design flaw, the overall build quality is still good. If I feel up to it, I may refinish the set with a different paint color and seal it

better. Amazon Basics Wooden Cornhole Set, Full Size : Sports & Outdoors

7/28 Update

We left our set outside during the day and it rained a bit. The designs on the boards were damaged. Water-soaked through the laminate and now the designs underneath are wet. I feel like these should be made weatherproof. I'm really disappointed 😞

Exactly as described and pictured. Bean bags are sturdy. Build quality looks great. We'll see how it holds up!
