HOW TO CHILL TIP

Apply your new press-ons in a few easy steps.

Step one
**Step one
PREP**

Prep your nails to apply the tips. Push cuticles back with the little wooden tool provided. Buff and smooth your nails with the file provided in the box.

Step two
**Step two
SELECT**

Remove Tips from the box and choose which size work best for your hands and nails. Lay them out on the cardboard piece provided.

Step three
**Step three
GLUE**

Moving from thumb to pinky, apply a small dot of glue to the base of the tip and the finger nail.

Step four
**Step four
PRESS**

Press firmly for 30 seconds per nail focusing on the edges of nail, this insures that no moisture or bacteria get under the nail.
