## Our Story

At Quicksilver Scientific, we are proud to offer you advanced liposomal supplements that are highly bioavailable and support vital health functions. From the absorption of essential vitamins to the elimination of ubiquitous toxins, Quicksilver products help customers achieve their genetic potential. With a range of over 50 products and a reassuring 30-day guarantee\*, you can shop with confidence for all your dietary supplement needs.

Our proprietary delivery system allows nutrients to absorb fast and act with up to 5X the efficacy of non-liposomal products. Increased bioavailability means our products begin to work within 5 minutes and progress to full exposure in 20-30 minutes, for a difference you can feel.\*

## Our Philosophy

Our birthright is full wellness and dynamic energy, in a bright state of being. Toxins create disruptions that impair mind and body function. In order to combat this universal toxicity, and to help restore a balanced system, Quicksilver Scientific® has pioneered a complete solution:

- Testing that identifies your toxicity levels
- Protocols that effectively detoxify your body
- An arsenal of premium supplements that help you reach optimal health

Our philosophy is rooted in our desire to give you the tools to maintain lifelong mind and body health.

## OUR MISSION

**Deliver On the Promise of Natural Health**  
We combine nature's nutrients with the power of science to deliver what we believe to be the most effective supplements and detoxification protocols on the market.

## OUR VISION

**To Help Support the Body and Mind**  
We use a holistic approach between science and nature to help individuals achieve mind and body health. Our products and protocols are here to help you unburden yourself of toxins and attain a state of wellbeing that may transform your health and how you relate to people in your life.

## OUR PATH

**Nature-inspired innovation**  
We innovate through modern science giving definition and direction to elements of natural health products that were strictly empirical before.

## Our Quality Guarantee

All of our products are created onsite at Quicksilver Scientific in our Louisville, Colorado, facility. In addition to our own products, we also develop products for some of the top brands in the nutraceutical industry. You'll find our trademark Quicksilver Delivery Systems® signature on these products, which is our guarantee that they feature the same nanoparticle technologies that give our own products unsurpassed bioavailability. And for peace of mind, all Quicksilver products come with a 30-day consumer money back guarantee\*.

As a cGMP-certified facility, we manufacture our Quicksilver Scientific health supplements according to cGMP regulations and strict quality-control guidelines. These FDA guidelines are the standard in ensuring that products are designed, monitored, and controlled at every stage of the manufacturing process.

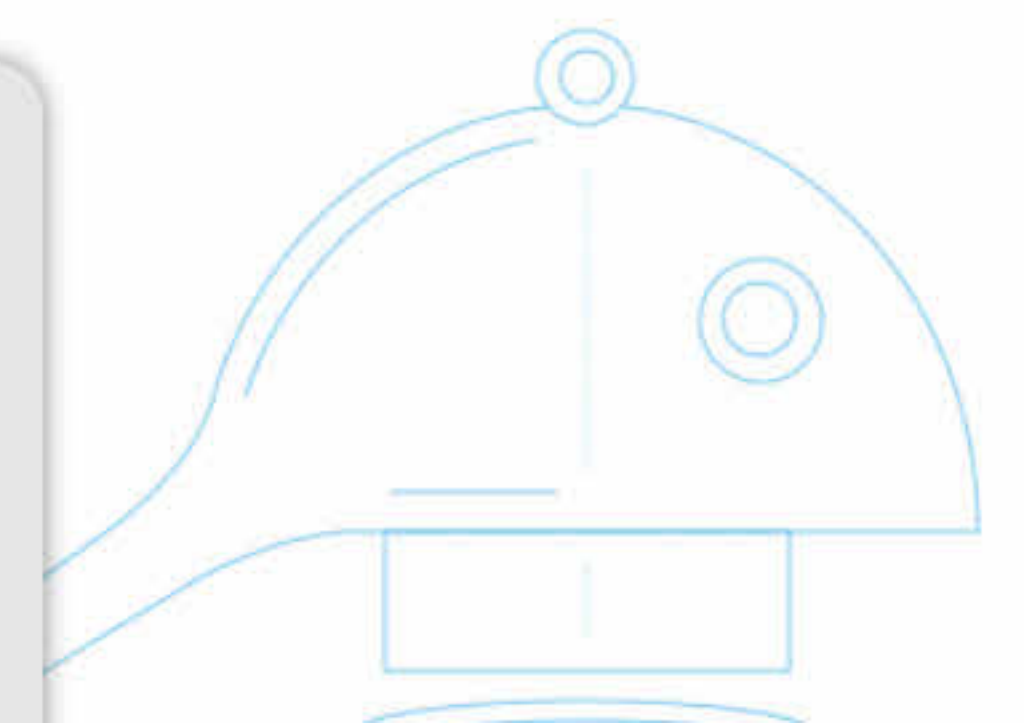

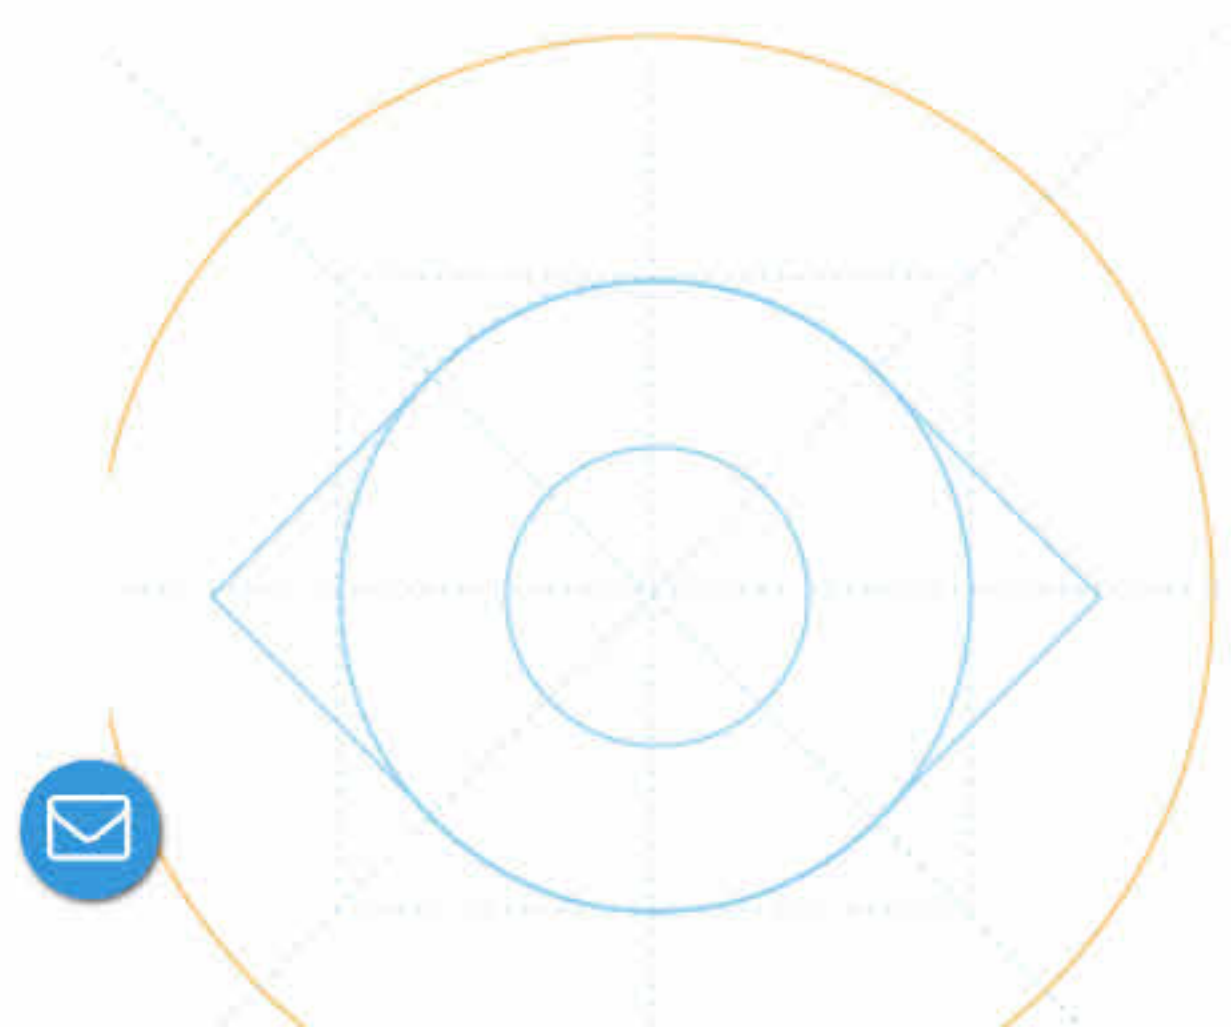

We believe in full transparency with our customers. All batches we produce undergo third-party testing to ensure that the safety, quality, and potency of our products uphold our company standards. Tests include: certificates of analysis, potency tests, microbial tests, heavy metals tests, pesticide residue tests, particle sizing tests, and ingredient identity tests. ## Dr Christopher Shade, PhD

Our founder and CEO Christopher Shade, PhD, has been working to uncover the curative power of nature through the practice of modern science for over a decade. As an industry thought-leader, his vast knowledge, intuitive understanding of chemistry and biology, and passion for healing are reflected in our innovative supplement delivery systems, detoxification protocols, and patented mercury speciation and heavy metals tests.

**The Heart, Soul & Curator of Quicksilver Scientific**

Our founder and CEO Christopher Shade, PhD, has been working to uncover the curative power of nature through the practice of modern science for over a decade. As an industry thought-leader, his vast knowledge, intuitive understanding of chemistry and biology, and passion for healing are reflected in our innovative supplement delivery systems, detoxification protocols, and patented mercury speciation and heavy metals tests.

**The Heart, Soul & Curator of Quicksilver Scientific**

An internationally recognized expert, lecturer, and teacher on mercury detoxification and liposomal delivery systems, Dr. Shade's eclectic background has informed the breadth of his work in cutting-edge lipid-based delivery systems for nutraceuticals. Growing up in a toxic steel town, he started asking questions about sustainability, igniting an early career in organic and biodynamic farming. Dr. Shade dug in deeper to the role environment plays in health at the Rodale Institute, observing how supplements could solve many issues in our depleted food system and help people on their journeys to optimal health. Today, Dr. Shade works alongside our management team and directly oversees our in-house R&D lab team. He personally developed Quicksilver Delivery Systems®, our proprietary nanoparticle technology that dramatically increases the bioavailability of supplements and protocols, leading to higher efficacy products – without the prick of a needle. Each day, Dr. Shade and the Quicksilver team are working to redefine the way we deliver vital nutrients into our bodies.
