

AHA

Giving back through life-changing experiences.

We're here to help every child have an "Aha! Moment."

That moment when they discover something amazing about the world around them or something even more amazing about themselves. They learn, grow, and are transformed in ways they never imagined.

The teaching tools we use to do this are as much our hearts, minds and energy and they are math, art, language, and science.

Once a child has experienced an Aha! Moment, it stays with them forever. And leaves them hungry and curious for more.

And once we witness a child's "Aha! Moment," we experience our own.

And then
You are like this:
A small bluebird decorated
With orange patches of light
Waving your wings near my window,
Encouraging me
with all of existence's love-
To Dance
And then
You are, O then You are:
The Beloved of every creature
Revealed with such grandeur- bursting

From each cell in my body,
I kneel, I laugh,
I weep, I sing,
I sing.
