# AT&T connected LEARNING CENTER™

Narrowing the homework gap by connecting kids across the country to digital learning.

Millions of students struggle with digital learning because they don't have quality internet connections or devices - an issue known as the homework gap. Through AT&T Connected Learning<sup>SM</sup>, we're investing in connectivity and technology, digital literacy, and digital learning solutions to help connect today's learners with success - in and out of the classroom. It's part of our \$2 billion commitment to help bridge the digital divide.
