● WHAT IS CLOUDCASA
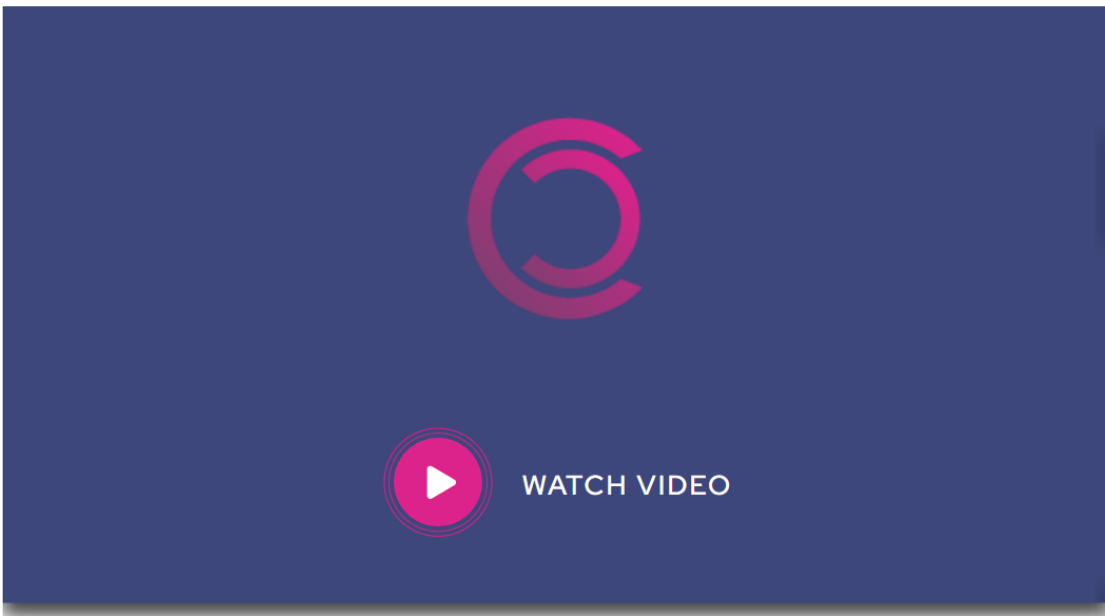

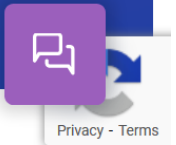

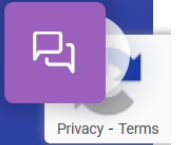

# Your Secure Home for Cloud-Native Backup

Learn More →

• OUR SECURE CLOUD-NATIVE SERVICE •

Kubernetes Backup-as-a-Service

Scan your clusters, backup your resources and stateful data, along with your cloud databases.
With CloudCasa, you don't need to be security, storage, database, or Kubernetes backup experts.

Kubernetes Backup Service

No new infrastructure or expertise needed.

01

Cyber Resilient Backups
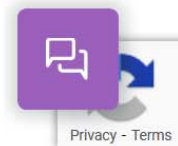

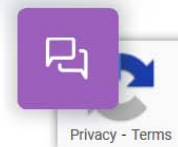

Security is built into every step of the service.

02

Powerful and Easy to Use.

Set it and forget it - we do the work for you!

03

Try the Free Service   Fair, Capacity-Based

Try the Free Service Plan

Free snapshots and Kubernetes resource backups. No payment information required.

Fair, Capacity-Based Pricing

Only pay for data that is being protected,
and not the infrastructure you are using.

Kubernetes Backup Service Highlights
