At Pinnacol, caring is more than kindness. It's our power tool.

Getting injured workers back to work faster. Saving Colorado businesses money that goes right back into their bottom line. When we roll up our sleeves, it pays off in dividends for our customers - who often become friends down the road. **And this care we provide – it's a labor of love.**

From Colorado. For Colorado.

To us, caring for Colorado is more than kindness –
it's our passion.

Doing the little things that mean so much, and
delivering tangible results that speak for themselves.

We live to put care to work

Work hard. Care harder.

Through grants, scholarships, employee giving and membership funding, we've contributed \$4 million to Colorado communities last year.

We're honored to be named one Colorado's 50 most community-minded companies last year and voted a top workplace by the Denver Post for five consecutive years.

It's the safest thing you can do.

Caring for workers starts with helping to keep them safe.

With the largest safety team in Colorado, Pinnacol ensures safety is at the center of everything we do.
