What does it mean to be an age-friendly employer? Do you have an ERG for older adults? If so, what programming are you including for this cohort? How are you handling the age-friendly message to current and future employees, customers and investors? What about the implications for younger employees? We'll share Insights on the future of phased retirement programs, and fresh research on how COVID is impacting employee and employer behavior when it comes to retirement. Don't miss the opportunity to collaborate and be out front on this critical topic.
