DSPT

DSPT skin is Dry, Sensitive, Pigmented and Tight

Baumann Skin Type Number 1 **1**

DSPT has 3 barriers to skin health:

- ✦ Dehydration
- ✦ Inflammation
- ✦ Pigmentation

What Are DSPT's Barriers to Skin Health?

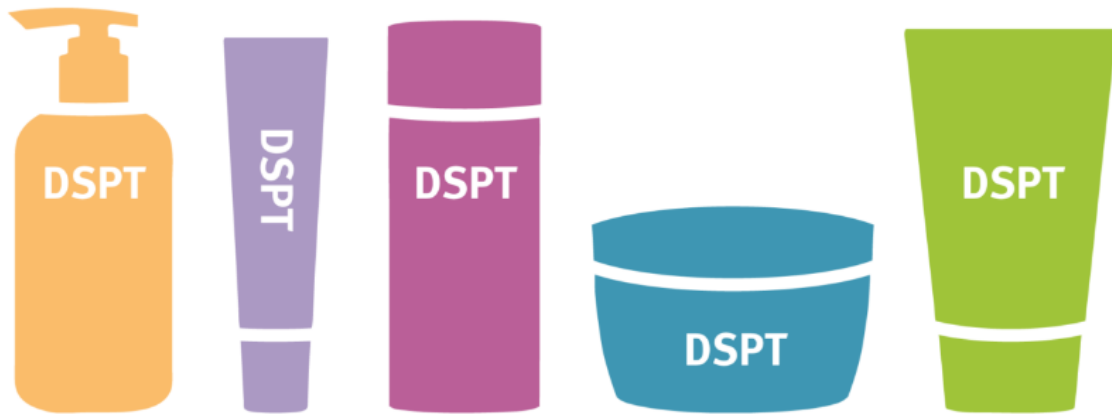

- ✦ **Dehydration** – An impaired barrier makes DSPT skin less able to retain water and protect against irritants and allergens than other Baumann Skin Types.
- ✦ **Inflammation** – Sensitive Baumann Skin Types have underlying inflammation.

DSPT skin is a further step from the following categories...

2:15 PM
7/6/2022

- ✦ **Inflammation— Sensitive Baumann Skin Types have underlying inflammation. DSPT skin types often have one more of the following: acne, rosacea, stinging or contact dermatitis.**
- ✦ **Pigmentation—DSPT skin types are more prone to pigmentation issues such as sun spots, melasma, and uneven skin tone.**

Product Advice for DSPTs

- ✦ **Cleanser—Avoid foaming cleansers**
- ✦ **Moisturizer—Use barrier repair moisturizers with MLE technology or ceramides, fatty acids and cholesterol**
- ✦ **Treatment products—Use anti-inflammatory ingredients**
- ✦ **Sunscreen—SPF 15+**

- ✦ **Cleanser—Avoid foaming cleansers**
- ✦ **Moisturizer—Use barrier repair moisturizers with MLE technology or ceramides, fatty acids and cholesterol**
- ✦ **Treatment products—Use anti-inflammatory ingredients**
- ✦ **Sunscreen—SPF 15+**

Use the proper products every day to change your DSPT skin type to the ideal skin type, ORNT.
