Potential Partners

### CUSTOMIZABLE WORKFLOW

Technology that fits your process, rather than the other way around

### OPEN ARCHITECTURE

Partner with any point solution in the market, or build your own technology

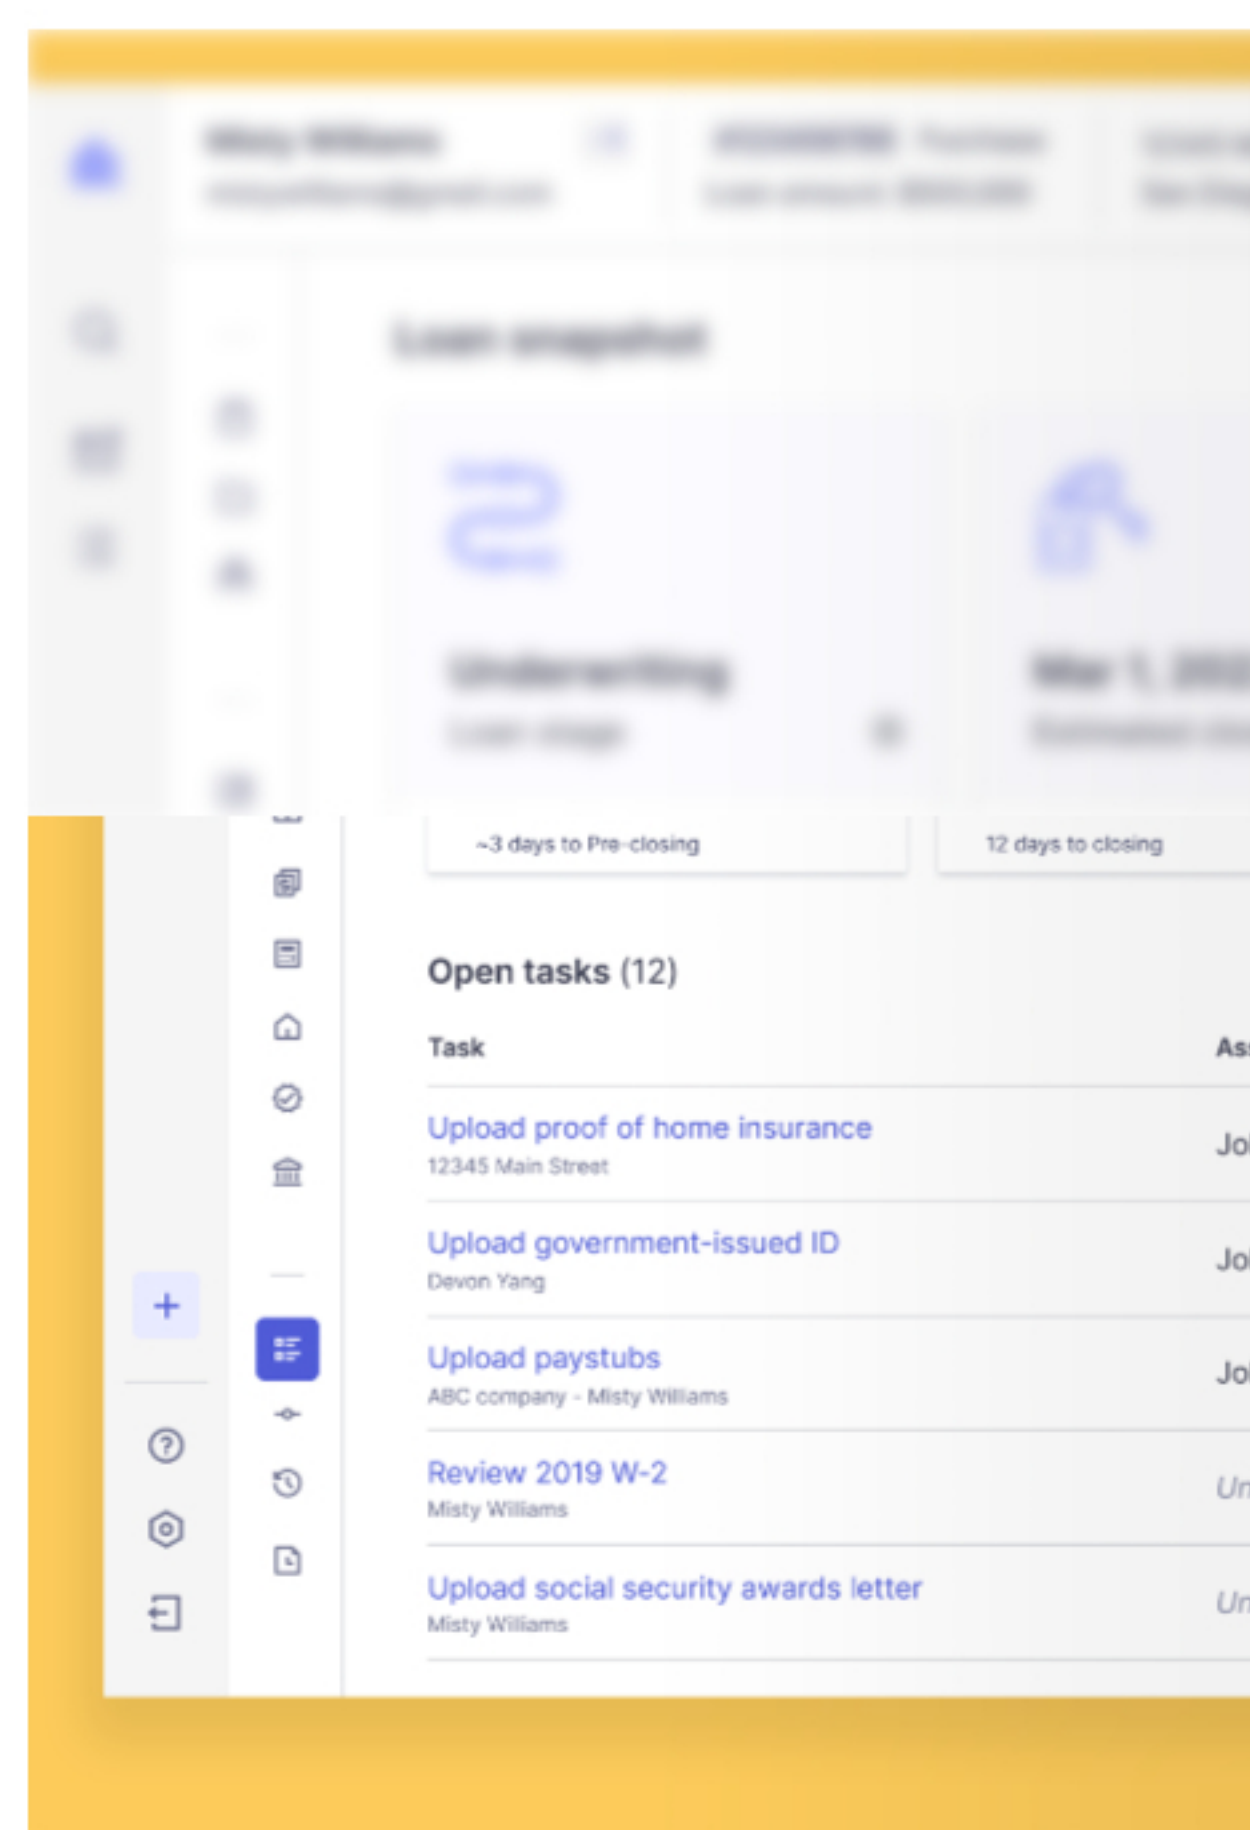

### SIMPLIFIED EXPERIENCES

Modern and intuitive design reduces training time for new staff, reduces human errors, and improves task efficiency

### OUR PRODUCT

## So what is the next-generation LOS, exactly?

- ✓ A modern system of record that is performant, fully audited, and fault tolerant
- ✓ A customizable workflow engine that enables business teams to configure, update, and automate processes without code
- ✓ Open APIs and developer tools that support any partner across the ecosystem

Our Investors
