

ABOUT US.

WE DELIVER EXCELLENCE.

Wanzek Construction is driven by our Vision to Be The Best; Deliver Excellence.

Headquartered in Fargo, North Dakota, Wanzek was founded on heavy/civil and concrete construction projects. By 2000, Wanzek established a large crane service division and a resume of projects for industrial and renewable clients across the Midwest. In 2008, MasTec, Inc. acquired Wanzek, providing continued growth and synergy in Wanzek's future. Wanzek is a platform company within the MasTec Clean Energy and Infrastructure Group, but retains its name, culture and operating structure. Today we are providing the highest quality EPC services for renewable energy:

- Clean Energy
- Solar
- Wind
- Energy Storage
- Services

Our vision inspires us every day and in every aspect of our company and services. To us, it means being the best by making the commitment to details that deliver excellence in every job, big and small. To our customers, it means having a responsive, dependable and capable general contractor and service provider with the experience and project execution history that creates a lasting relationship.
