Help us grow

4Roots Farm Campus Capital Campaign

4Roots will break ground on Phase One of the Farm Campus in 2021. **Phase One is all about education.** Flexible lab-style classrooms, a teaching greenhouse, and other educational growing spaces will support programs offered in partnership with Valencia, OCPs, the University of Florida, and more. The greenhouse will feature technology from Israeli company GrowPonics, one of the leading hydroponic companies in the world.

There are several naming opportunities available for farm campus assets. **A gift in any amount will help us build the epicenter for revolutionary local food solutions.** Thank you for considering lending your support to this essential and exciting community project.
