Description 

Clean and Freshen Urinals for 30 Days with Unitex® Pleasant Effects Urinal Screens!

More than 2X the Fragrance!

Every Unitex Pleasant Effects Urinal Screen is infused with more than TWICE the fragrance of competing urinal screens. The slow-release formula ensures that rather than an overpowering burst of fragrance in the beginning that dissipates quickly, a steady fragrance is released consistently from day one to day 30.

Infused with Enzymatic Technology

With every flush, Unitex Pleasant Effects Urinal Screens release billions of optimized bacteria that seek out and digest odor-causing residues in urinals. This not only fights tough odors, but also helps keep the urinal cleaner.

Reduced Splash and Cleaning Time

Unitex Pleasant Effects Urinal Screens feature a unique design that helps to minimize splash, keeping liquids where they belong instead of splattering out and onto the floor. This promotes a cleaner restroom and reduces cleaning/maintenance time for janitorial staff.

Handy Reminder Tabs

With easy-to-use reminder tabs built into every screen, you won't have to guess when it's time to change the screen. Simply pull off the appropriate week and month tabs to set your reminder.

Easy Installation

Unitex Pleasant Effects Urinal Screens can be installed both ways without affecting performance. No matter what side is facing up, these screens fight odors, minimize splash-back, and reduce maintenance.

Available fragrances:

(Listed in order of intensity from least to most)
