

Paladin provides a complete security solution designed to protect your business from a broad range of sophisticated and targeted threats.

Antivirus

Spyware Protection

Ransomware Protection

Total Data Security

For only a few dollars a month:

- ✓ Security software installed & managed for you
- ✓ Continual updates designed to protect against the latest potential dangers
- ✓ Ongoing state-of-the-art protection against a variety of cyber-threats
- ✓ Weekly report showing security problems and how they were neutralized

Why ManagedSecurity™?

Listen to our lead technician describe the advantages of a managed antivirus program.

Managed For You

Your security is monitored 24/7/365 by our team of technical experts.

Proactive Protection

As new threats are identified, you get antivirus updates every three minutes to ensure uninterrupted protection for all your computers.

Automatic Updates

One terminal or twenty, your computers are always current, always protected.
