Grow your retail store with our intuitive point of sale

Powerful operations with hundreds of integrations to help control all aspects of your business. Automate inventory management, accept contactless payments and allocate staffing, all in one platform.

Automate your inventory

Our Market Driven Inventory Management™ analyzes sales patterns, uncovers trends and forecasts the weeks ahead, all with the touch of a button.

Expedite checkout

Accept digital and contactless payments in seconds. Manage all returns quickly and accurately with or without a receipt for an elevated customer experience.

Strengthen your brand

Build customer loyalty with our royalty free Rich Rewards program and reward your customers with special discounts and pricing.

Powerful integrations that scale your business

From capturing the digital audience by promoting your products online, to managing your workforce with unique business insights, we offer integrated tools with just a few clicks.

Drive the digital audience to your store by syncing your unique Paladin inventory to Google.

Expand the reach of your Paladin inventory with the latest addition to our e-commerce offerings – Ez-Ad EzCommerce.

Easy to learn, easy to profit

Get your store up and running in hours, not days. Our intuitive system requires minimal training and setup so you can get to servicing your customers quicker..
