Already registered sevvral days ago , and got my account quickly verified. I like that they are not that strict with verification, as long you have your valid id. UI is great, i love it. It is not irritating to the eyes, design is simple yet elegant. Great features, i like that they don't put unnecessary things there, coz too much can be confusing. App is very easy to use, and its fun exploring it. I enjoy using it and trying its features.

Recently register and get verified. Quite impress with the service and quick response. I like the background and it has great interface and features. It's smooth for the beginner. I think this app is easy to use and easy to trade for all cryptocurrencies. It safe and secure. Still exploring this app and looking forward to learn more and earn more from this app .
