

There are several third-party exchanges on Whalefin Platform/software, and the applicant (Whalefin) could promote the virtual currency to the users and help the users to complete order transactions on third-party exchanges through Whalefin Platform/software. Therefore, the applicant believes that they has provided the services “Sales promotion of cryptocurrency, digital tokens, and virtual currency for others” to others under the applied mark.

Below screenshot of Whalefin Platform/software Execution page shows the name of third-party exchanges.
