BUILDING ON A RECORD OF SAFETY

2021 STATS--TRIR: 0.85 NCCI EMR: 0.75 PA MOD: 0.82 LTR: 0.13 NJ MOD: 0.47

Our people power our success, and Riggs Distler puts the highest value on their safety. Taking a proactive approach, our team identifies and mitigates potential hazards during the planning and project design phase—before they become problems in the field. Riggs Distler's managers develop site and project-specific safety plans, provide ongoing safety training for our staff, and utilize best practices on the job site that go beyond mere compliance. Our comprehensive oversight program results in LTI, EMR, and DART rates that consistently outperform industry averages and our competitors.

A CENTURY OF SERVICE

Riggs Distler is the first choice for power and utility providers throughout the United States. Building, maintaining, repairing—we provide integrated/overlapping services our clients need to keep their business running.

HEAVY CIVIL

Scaffolding
Concrete Washouts Installation
