Speaker Type Outdoor

Connectivity Technology Bluetooth, USB

Model Name A3390

Subwoofer Diameter 5.25 Inches

Brand Soundcore

About this item

- Starting Sound: Enjoy a huge 101dB of sound delivered by a 5.25-inch woofer, 2-inch tweeter, and 5.25-inch passive radiator. BassUp™ technology adjusts and intensifies low frequencies in real time for a body-shaking experience.
- IPX7 Waterproof: The water-tight casing creates an impenetrable seal to keep the music playing, even after full submersion.
- Beat-Driven Light Show: Rave Mini's LEDs pulse, phase, and flow in time to the beat to create a dazzling display. Use Light DJ on the Soundcore app to control the lights and switch up your style.
- 18-Hour Playtime: Go from your yard, to a tailgate, and on to a night of partying at the beach—all on a single charge. And if your phone can't keep up, plug it into the built-in USB port and charge while you play.
- Soundcore App: Up the stakes with electrifying games, tailor the EQ and lights, and switch between Indoor and Outdoor sound modes.

Product Description

Bright Lights

Use the app to choose from 6 lighting modes with customizable colors or mix things up with Light DJ to add unique light and sound effects.

18-Hour Playtime

Sing along at the top of your lungs, dance until your feet hurt, and enjoy virtually an entire day of entertainment—without running out of charge.

All-Weatherproof

From getting dunked in a pool to getting soaked in a storm, Rave Mini is fully protected by its waterproof casing.

Charge Your Devices

Phone low on battery? Simply plug into the built-in USB port and charge while you play

Wireless Stereo Pairing

Enjoy stereo sound or double the volume when you connect two Rave Mini speakers through a single device.

Dual Bluetooth Connection

Want to share DJ duties with a friend? Pair both your phones and conveniently play music from either device or control through the app.

Soundcore | *Hear It. Feel It.*

Model number: A3390

A Brand Under Anker Innovations

Blast Out the Tunes

A massive 80W of sound with body-shaking bass that's boosted in real-time by BassUp™ technology is pumped out by a 5.25-inch woofer, passive radiator, and 2-inch tweeter. Turn up the volume and create a party in virtually any indoor or outdoor space.

Don't Cry Over Spilled Drinks

Go wild and party up a storm! Rave Mini's IPX7 waterproof casing keeps the music pumping even if drinks get spilled, you get caught in an unexpected downpour, or the speaker somehow finds its way into the deep end of the pool.

Time to Shine

The Rave Lighting algorithm and independent DSP synchronize Rave Mini's LEDs to the beat. Personalize your experience further with the Light DJ feature on the Soundcore app.

Up All Night

A massive Li-ion battery with Anker's proprietary battery technology fuels up to 18 hours of non-stop music to keep the going 'til dawn. And as your phone's power level drops lower and lower, plug it into the built-in USB port to top it up.

Let the Games Begin

There ain't no party like a Rave Mini Party! Use the app to play 6 iconic party games with your friends, old and new!

Note: Rave Mini's woofer is positioned in the center of the speaker with a tweeter above it. The passive radiator is located on the back of the speaker.

Brad F

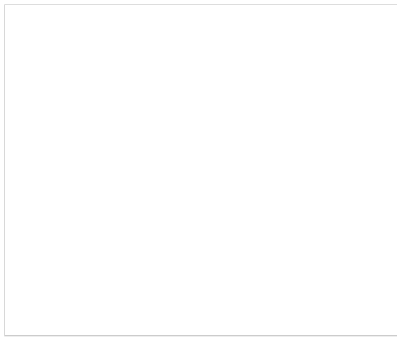

Good Value. It's Loud and has good battery life.

Reviewed in the United States on June 7, 2019

Verified Purchase Early Reviewer Rewards (What's this?)

I bought this to replace a JBL Charge 3 that I take on the river. It is a bit louder with overall volume but has a ton more bass even without the bass boost enabled. The waterproofing works well. It's much better quality than earlier Anker speakers that would sound muffled when they got a little wet. This one will plunge under a rapid and sound perfectly normal when it comes out the other side.

I listen to a lot of bass heavy music, EDM, rap and etc and it sounds great for it's size. The only negative for me is I thought the battery would be a little better. At 70% volume, bass boost off, and lights off. I get around 6-7hrs. I know the 18 hours is assuming 50% volume and content that isn't as bass heavy but I was hoping for at least 8-10 hours. If I turn the lights on it's closer to 4-5hours. I bought a battery pack with an

Sponsored

AC port to help offset this when traveling but it's still disappointing.

Overall it sounds great for the price(much louder and more bass than the Charge 3 or JBL Xtreme.) If you've got a way to plug it in or recharge between uses I highly recommend it, just don't expect it to last all day if you play up tempo bass heavy music.

Nothing more to say- if you bring this to the next party you go to, you WILL be the party!!!

Quality Anker sound quality, fit and finish, lights and amazing sound, all backed by Anker's unprecedented 18 month no questions asked warranty.

Don't think about it, just buy it- this will be the hottest thing you'll bring to a party this summer!

Like your music loud and lots of bass!?

Reviewed in the United States on October 12, 2019

Verified Purchase

I scoured the internet and youtube for reviews on this product before buying. I was indecisive as to whether I should buy this or the charge 4. My family and coworkers have the charge 4 and I can't say anything bad about the charge 4. So to be different I decided to go for the Rave Mini and I have no regrets! The Rave Mini is basically a step up from the charge 4. Louder with bass (not to say the charge 4 doesn't have that) and pretty lights! Battery life is good as well! Its huge and a bit heavy but other than that overall I love this speaker!

Speaker = Amazing

Reviewed in the United States on May 5, 2020

Verified Purchase

Listen this will be my complete unbiased review and it's all you really need to know unless you really want to go further.

-comparing this to my 100\$ Bose speaker which is super small. Their is really no sound difference. Both sound amazing

- This speaker gets loud, I've honestly bought this for when I have to take showers in the boys locker room and wanna blast music. This plus the echo in the locker room and the super bass is defiantly gonna get me in trouble but it's gonna be like our own race party in the lockerroom

-The bass. All you need to know is you won't be disappointed

-So after a couple weeks of use I would defiantly put this as what your first big speaker should be

Just a personal thing I would like to say. Every time I play a song on the speaker I always smile because is so loud and the bass

 Bob Byron

Waterproof, good volume, fun for rivers.

Reviewed in the United States on June 1, 2019

Verified Purchase

Took this river floating and I really enjoyed it. It was the right volume and the right size. At one point I was asked if it could go louder and it couldn't but that was just at one point and honestly I think that it gets very loud for the price and the fact that its waterproof! Sound quality is great. And it definitely got wet. It spent 25 minutes with the bottom half sitting in 3 inches of water.

I also got a compliment from a stranger on my speaker's sound quality and how it looks (and the fact that it was waterproof).

Considering buying a second one to pair them together for my next float!

It's everything is says it is and then some

Reviewed in the United States on October 6, 2019

Verified Purchase

I like everything Anker makes. I bought two lesser Bluetooth speakers they made and they were good but just a little anemic for my needs. There is nothing anemic about this speaker. I have a large back yard and a pool and it does great filling it up with sound. I could get on my neighbor's nerves with this speaker pretty easy. It would be nice if you could charge it with USB but it's not that much of an inconvenience.

Great outdoor Bluetooth party unit!! Love Anker products and they don't disappoint again. Waterproof, killer low end and clear highs. Can't ask for a better portable speaker in or outdoor.

Michael T.

Great company, poor product

Reviewed in the United States on May 30, 2019

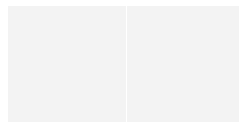

Verified Purchase

When I buy speakers, I always buy Ultimate Ears. But when I wanted something bigger, I decided to try another brand I trust, Anker (maker of soundcore). I own 15+ Anker products, all of which I love. But with this speaker, to say the least, I was extremely underwhelmed. The audio quality sounds muffled, and the bottom speaker is producing no audio. For \$75, I'd accept it. But at a \$150 price point, I'm very disappointed in a brand I trusted. The only reason I give two stars over one are the lights and the loudness. The speaker gets very loud, which I like (even with one speaker not working), and the lights provide a cool effect.

Unless anything changes, I will be returning this product.

UPDATE

I raised my review up to three stars for their customer support. While I was disappointed with the speaker, they helped me out, and helped me find a good deal on a new speaker in exchange.
