CBD DOG SHAMPOO

CBD soaps and skincare products have become immensely popular in the past few years. You've probably seen such products directed towards humans, but CBD offers the same benefits to our pets! With HolistaPet CBD dog shampoo, you can take care of your dog's coat and skin with every wash. The nourishing and revitalizing ingredients help soothe even the most sensitive skin, while the CBD helps provide soothing, all-around relief for the most enjoyable bath times.

But how does CBD work, and how does it benefit your dog? Is it actually effective? Let's take a look!

[Read More - Directions](#)

WHAT IS CBD DOG SHAMPOO?

CBD pet shampoo only differs from regular shampoo in one way – the fact that each bottle is infused with 200 milligrams of CBD. HolistaPet CBD shampoo looks and feels like any other shampoo that you can use when you bathe your pets. Keep your dog smelling great and looking even better with CBD shampoo.

Bath time is not always enjoyable for dogs. They may try to run away or hide to avoid it. The CBD offers the perfect opportunity to remove some anxiousness and jitters and show them that bath time can be fun. However, it all comes down to you, the owner, to really work with them and show them that bathing can be a great bonding experience!

HOW DOES CBD DOG SHAMPOO WORK?

CBD dog shampoos work by supporting the functions of the ECS. There are

cannabinoid receptors spread throughout the largest organ in the body – the skin!

Research has shown that the ECS plays a vital role in the health of skin cells. It does so in a variety of ways, more than we can get into right now. Plus, researchers continue to discover more about the ECS every day, so who knows what exciting revelations are still to come? Let's go over some of the most important ways the ECS affects skin health.

Your dog's skin (and yours) contains *sebaceous glands*. These glands produce an oily substance called sebum. "Oily" might sound a bit gross to you, but sebum doesn't make skin greasy. Sebum moisturizes and protects the skin. You are covered in sebum right now!

A sebum deficiency causes dry, itchy skin. This is where CBD enters the picture. When topical CBD is applied, it can promote sebum production, keeping your dog's coat shiny and soft. Further **research** has indicated that CBD topicals improve dry skin and soothe itching. If your dog has an allergic reaction to something, CBD can also help **reduce swelling** and redness to soothe irritated skin.

WHY CHOOSE HOLISTAPET FOR CBD DOG SHAMPOO

HolistaPet is a leader in the pet CBD industry. What makes us special? Our founders have a background in organic agriculture and a passion for natural wellness. We want to provide your dog with products that are healthy all-around, not just because of CBD. That's why we make every HolistaPet product from organic, all-natural ingredients.

Brand transparency is very important to us. You should know exactly what you're giving your dog. That's why we have all of our CBD products tested by third-party labs. They confirm that the CBD content is within the legal range and screen for any harmful contaminants. The labs document their test results in Certificates of Analysis (COAs), which are available on our website for you to review.

FREQUENTLY ASKED QUESTIONS

CAN MY DOG GET HIGH WITH CBD DOG SHAMPOO? —

No, your dog cannot get high with CBD shampoo. As mentioned before, hemp-derived CBD is federally legal if it contains 0.3% THC or less. THC is the compound found in the hemp plant that produces that infamous "high." Our CBD shampoo contains no THC whatsoever and is suitable for all dog breeds. Plus, your dog won't be ingesting the shampoo, so there's almost zero risk that they will get high!

HOW DO YOU PROPERLY USE CBD DOG SHAMPOO? ▼

HOW FREQUENTLY CAN I USE CBD DOG SHAMPOO ON MY CANINE? ▼

WHY USE CBD SHAMPOO FOR DOGS OVER OTHER PRODUCTS? ▼

CAN I MIX CBD OIL INTO MY DOG'S SHAMPOO? ▼

DOES CBD SHAMPOO FOR DOGS SMELL LIKE THC? ▼

WHAT ARE THE EFFECTS OF USING CBD DOG SHAMPOO? —

The most common negative side effect of shampoos and soaps is skin irritation. Most brands of hypoallergenic dog shampoo lack the added benefits of CBD. With HolistaPet's CBD shampoo for dogs, you don't have to pick between CBD and skin protection. Our mild shampoo formula is suitable for dogs with all skin types, no matter how sensitive.

★★★★★

I noticed my little Yorkie shedding a lot so a friend told me about this company that they currently get dog treats for their Pomeranian. I decided to try this product out alongside their new CBG oil two weeks ago and I am so happy with the results. The results have been amazing! It's easy to apply and rinse off, smells great! Like berries! His coat is shinier and smoother and he has a lot more energy during the day which is awesome. He's six years old but now he's running around like he is a young pup. I can't wait to try their other products. Thanks Holistapet!
