## FREQUENTLY ASKED QUESTIONS

Can CBD Be Addictive To Dogs?

—

CBD is non-habit forming, so you do not need to worry about your dog developing a dependence on our natural dog treats. This is one more way that CBD and THC differ from one another. THC binds strongly to cannabinoid receptors, which is why some people form a habit. This is not an issue with CBD.

My 3 stars is not for quality. These have made a huge improvement in Bunnie. BUT... she is 13 with little amounts of teeth. These are like rocks! Even the chopper can not grind these. Maybe try making a SOFT chew? Even soaking in boiling hot water does not completely soften them. I am sad to say I can not continue buying them for this reason. If your dog has great teeth, it's a good purchase.

My 15 year old dog was diagnosed with a serious heart problem, I was told that CBD can help immensely along with a few other things. I found these CBD treats that are for heart health and has ingredients that the vet told me to give her, like blueberries, so I was so happy to try them! Honestly I figured I'd try them once because I didn't have much hope, but I was amazed at how these treats have helped her! I can see a difference when I forget to give her one, she starts showing signs of decline, so now I make sure she gets one everyday, I have my baby girl back and I can honestly say these treats have kept her going. So thank you so much holista pet for making these!

These CBD treats have been a key part of a plan to help our 1 year old Labradoodle conquer her separation anxiety. She loves the cookies and we see a positive change in her behavior which has allowed us to work on the separation issues.
