Powered by a platform you can trust

AWS GovCloud

PowerDMS is hosted in multi-geographic, U.S.-based data centers powered by Amazon Web Services GovCloud (US).

Secure Data

With SOC2, CJIS, and HIPAA AT 101 third-party audits, you can be confident that your data is secure and accessible.

Disaster Recovery

PowerDMS maintains data in geographically dispersed data centers with disaster-recovery systems in place.

Access Control

Control who can access information in your PowerDMS site. Assign view only, audit, and edit rights to users/groups.

Built for your industry

PowerDMS serves more than 5,500 public and private sector customers worldwide. Now high-trust organizations in any industry can be preventative, instead of reactive.

Law enforcement agencies trust PowerDMS to:

- Keep officers informed of the latest policies and training
- Improve accountability with electronic signature capture and tracking
- Promote transparency with the communities they serve
