*Since 1926*

*Grow Confidently*

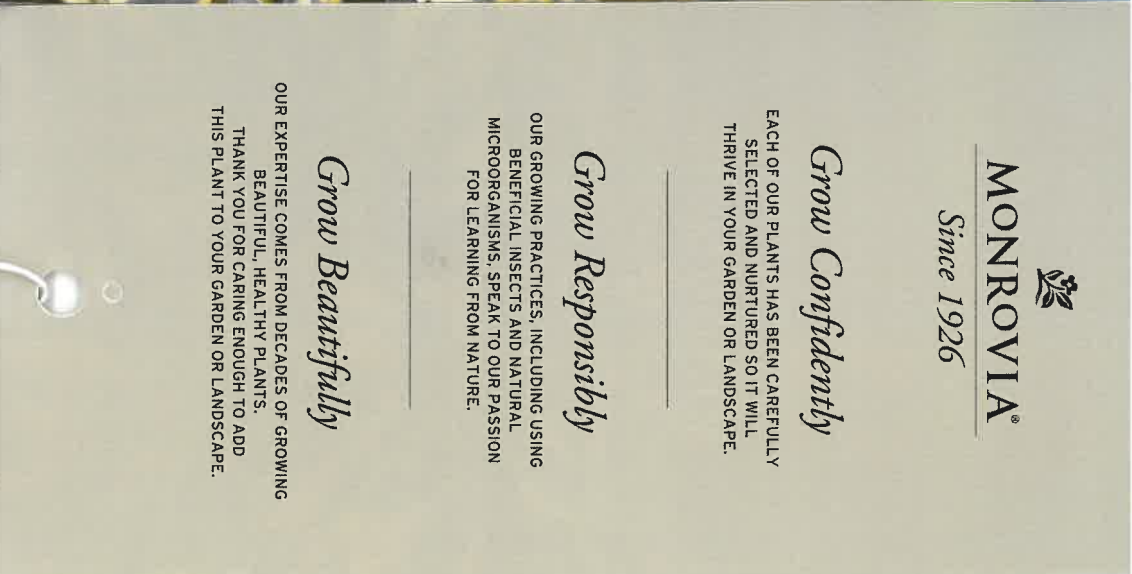

EACH OF OUR PLANTS HAS BEEN CAREFULLY  
SELECTED AND NURTURED SO IT WILL  
THRIVE IN YOUR GARDEN OR LANDSCAPE.

*Grow Responsibly*

OUR GROWING PRACTICES, INCLUDING USING  
BENEFICIAL INSECTS AND NATURAL  
MICROORGANISMS, SPEAK TO OUR PASSION  
FOR LEARNING FROM NATURE.

*Grow Beautifully*

OUR EXPERTISE COMES FROM DECADES OF GROWING  
BEAUTIFUL, HEALTHY PLANTS.  
THANK YOU FOR CARING ENOUGH TO ADD  
THIS PLANT TO YOUR GARDEN OR LANDSCAPE.

A small evergreen shrub that holds many branches  
of small, toothy, gold-edged leaves. No berries on this  
male form but a pollinizer for other female English  
holly varieties. Use to brighten the landscape as a  
hedge, foundation plant, or landscape accent.

**LIGHT** Partial to full sun

**WATERING** Water when top 2 inches of soil is dry.

**BLOOMS** Spring

**USDA ZONES** 6-9 **HARDINESS** -10 to 0°F

**AVERAGE SIZE** Slowly reaches 4 to 6 ft. tall and wide.

**MONROVIA®**

*Since 1926*

Since our founding by Harry E. Roseale Sr.  
in 1926, Monrovia has been synonymous with  
carefully selected plants that Grow Beautifully™.

Harry nurtured plants with improved features  
such as disease resistance, and protected his  
discoveries with plant patents. Today we work  
with leading breeders and plant explorers around  
the world to grow varieties known for stronger  
performance.

Harry was also a pioneer in growing plants in  
containers. Previously these plants had been  
grown in the ground and uprooted. It was a  
revolutionary idea, and he saw that plants would  
grow more vigorously and transplant better if  
their roots were protected.

From our custom soil mixes to our use of  
microorganisms and compost, we remain inspired  
by Harry's desire to provide all that a plant needs  
to thrive. Our craftsmen are committed to  
growing fully formed, well-rooted plants that will  
Grow Beautifully™ in your garden or landscape.
