Trainee Experience

Meet Your People Where They Are

2 out of 3 frontline employees don't have an email address. Opus helps you train a multigenerational workforce.

Mobile app

Reach your people equitably with mobile-first training. Make courses of any size that are enjoyable to take.
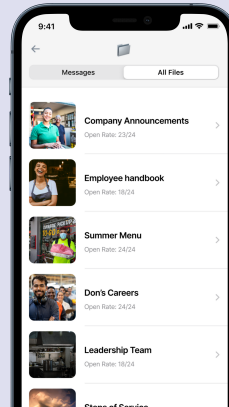

Multilingual Learning

Lessons are automatically delivered in each employee's preferred language. Add ESL as a benefit as well.
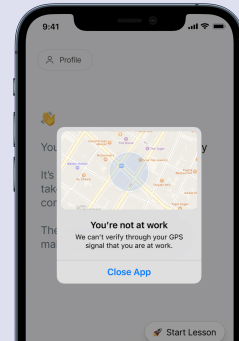

Resources on Demand

Make company files accessible in 1 tap. Because when you don't need a lesson, you need a resource.

Wage & Hour Compliant

Clock-in confirmation and a robust app for managers means your business stays compliant with all state and local laws.

Admin Experience

Course

Authoring That's Fast (Really)

Create meaningful courses in as little as 10 minutes. Translate them in seconds. Assign them effortlessly.

Create courses for every employee

80% of your team doesn't work at a desk. Build for every step of their employee journey. From new hire training at day 1 to leadership

Collaborate with your colleagues

Your trainers will love us, no matter what their skill set. Seamless commenting and co-building capabilities mean your team can easily get

1 billion+ free course assets

training at day 1,000.

feedback on the lessons they build.

without stress -- UnSplash, Giphy, and Opus catalog integrations.

AI-driven grading technology

Focus on coaching, not grading. Unlike legacy Learning Management Systems, Opus uses Natural Language Processing to grade responses while being mindful of user intent.

Secure, cloud-based and enterprise-ready

No software downloads required. With robust privacy protections and redundant data storage, expect 99.9% uptime.
