## RAW Cone Bro

This RAW Cone Bro is a glass tip that goes on the outside of a cone instead of the inside and works with both pre-rolled cones and hand rolls. Just slip in your cone or roll, smoke and enjoy! The inside of this glass piece is etched to give a better grip to your cone and features the classic red RAW logo printed on the exterior. This is the easiest way to enjoy the glass experience while smoking a perfect RAW cone.

Handmade in the U.S.A.
