

## A UNIQUE PROGRAM

Jump start your career with a curriculum rooted in learning career, life, and academic skills. Join our family and discover what it means to be #YATC.

## / WHAT YOU'LL LEARN

### PRACTICAL AUTOMOTIVE SKILLS

Through YATC's intensive hands-on curriculum and individual instruction, students gain the skills needed to begin a successful career in the automotive industry or use the knowledge they've gained to build a career that interests them most.

Students receive intensive instruction in automotive theory, as well as practical skills. Technical skills are taught in the classroom in both large and small group formats. The focus of YATC's approach is to meet the individual needs of each student to help them strengthen their toolbox for the future, preparing them for professional success.

### CRITICAL LIFE SKILLS

Students are given personalized attention as they develop vital interpersonal, professional and life management techniques to last a lifetime.

Life Skills classes are taught twice a week and are designed to help students understand how to handle real-life situations, become familiar with current events and better comprehend issues in society and politics. Class topics include subjects such as job interview skills, resume writing, setting and achieving goals and health and personal wellness. Field trips, guest speakers and team-building activities enrich the student experience.

### FOUNDATIONAL ACADEMIC SKILLS

Professional instructors and caring tutors give students the individualized guidance they need to grow their academic skills to the next level. Test preparation and tailored support are offered to help students achieve their high school diplomas or specialized mechanical certifications.

This individualized element of the YATC curriculum helps students improve academic knowledge based on each student's needs. Curriculums are designed by YATC's two academic instructors to specifically target each student's areas for improvement based on their performance on the Test of Adult Basic Education (TABE).

## "A HOME AWAY FROM HOME"

Interested in becoming a part of our family? Listen to some of our student testimonials to discover if joining the YATC is the right choice for you.

"YATC has given me the skills I will need not only to fix a car, but skills and knowledge I can apply to all aspects of my life."

Amari, Class of 2018

## / THE YATC EXPERIENCE

## A TYPICAL DAY AT YATC

Each day students spend time in YATC's state-of-the-art automotive shop, receiving an extensive period of hands-on training that enables them to apply their automotive theory lessons and acquire practical experience in a working atmosphere.
