

Point One specializes in supporting the Warfighter and First Responder in defeating terrorist and criminal elements that work to employ Improvised Explosive Devices (IED), Home Made Explosives (HME), Weapons of Mass Destruction (WMD), and CBRN weapons or materials. Company leaders and staff are comprised of technical experts and former military special operations professionals who have real world experience in countering and combating the terrorist networks that utilize these weapon systems. With a mindset of "proactive" versus "reactive," Point One is a proven, highly regarded, national resource of experts.

## TRAINING COURSES

- » Operator centric, cutting edge, and forward leaning
- » Connecting science with operations through experience
- » Operational and technical experts comprise each training team
- » Decades of EOD, Special Operations and technical experience
- » Maximum practical training to promote retention and confidence
