21st Century State of the Art  
Ambient (68°F, 20°C) Temperature Extraction Solutions For:  
All Oil Bearing Agricultural Commodities

Energy Efficient • Low Temperature • Low Pressure Processing  
Creating Two Co-Products: Superior Oils and Protein Rich Defatted Raffinates  
An alternative to Hexane, CO2, Expeller and Extruder Processing:

### Example: Extracted Soy Flakes

Light and Heavy Oil Seeds • Cereal Brans • Light Leafy Vegetables • Solid Body Vegetables • Botanicals  
Vegetable and Botanical Oil Seeds • Flavors, Fragrances, Spices and Herbs • Tree Nuts • Oleo Resins • Nutraceuticals
