REDUCE GUARD HOURS AND INCREASE SECURITY THROUGH TECHNOLOGY

Large operations of any kind mean big security challenges. But securing broad perimeters and complex environments with traditional patrols, 24/7, can be cost-prohibitive.

[Read more](#)

SECURE PARKING LOTS

The bigger the lot, the larger the safety and security challenges for staff, customers and visitors. Negligence is not an option, but adding more patrols is cost-prohibitive.

SECURITY CLIENT CASE STUDIES

Real solutions for real challenges – see how ECAMSECURE's unique integration of technology and expertise meet real-world goals for effective, efficient security.

MOBILE SURVEILLANCE UNITS IN USE BY URBAN POLICE

By leveraging ECAMSECURE's Mobile Surveillance Unit (MSU) technology as their eyes and ears, the APD is now able to implement data-driven, intelligence-led policing techniques to reduce crime and increase the effectiveness of officers on the ground.

[Read the Case Study](#)

SCE

SCE is one of the country's largest electric utilities, operating for more than 125 years. ECAMSECURE was approached by the client due to a recurring theft on site.

[Read the Case Study](#)

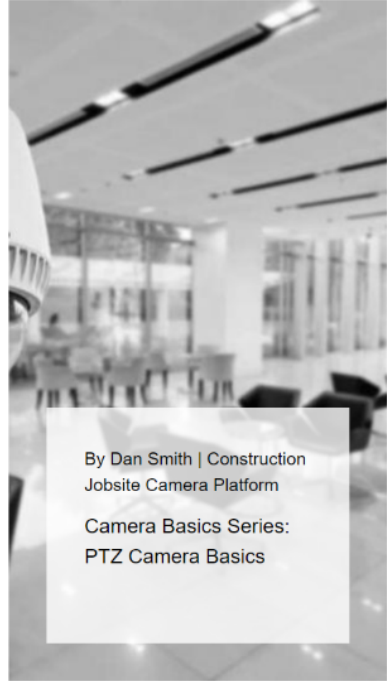

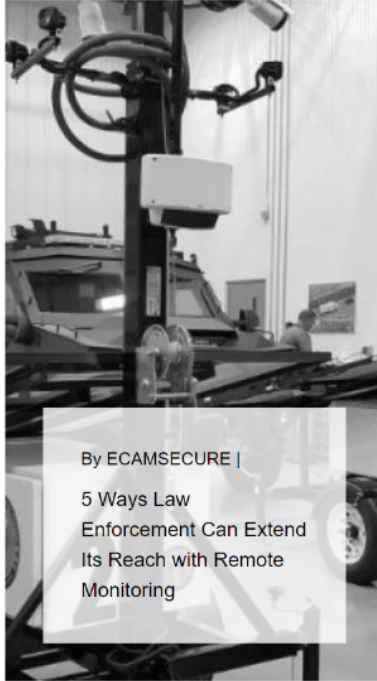

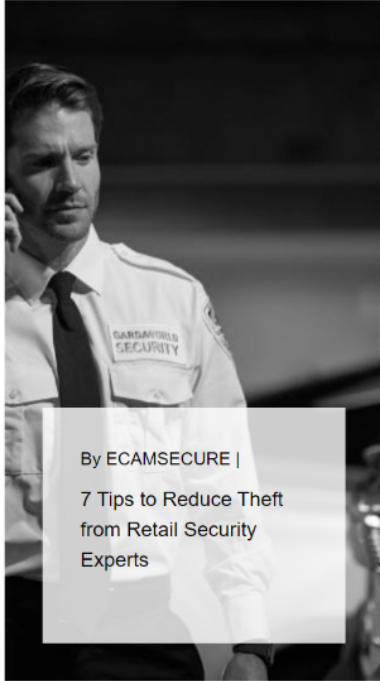

MAIN ELECTRIC SUPPLY

Main Electric, located in the south of the state of California, was plagued with many security issues including thefts and robberies. They tried unsuccessfully to use different solutions but the end result was the same. They turned to ECAMSECURE for a customized security package to help them stop, or at least limit, all the incidents on their sites.
