I had no idea how easy it was to build credit. Atlas makes it super easy to do. The user interface isn't complicated at all. It's the card every college student needs right now.

Love this card- It's so convenient and easy to use. Took two minutes to sign up. Been using it for a few months and my credit score has already gone up! It's also saved me money at Starbucks and H&M. It's a no brainer compared to my debit card.
