What Voyager Can Do For You

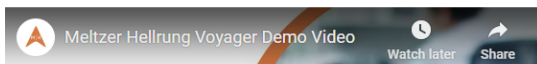

As a technology-driven immigration services firm, we combine our legal expertise with advanced technology to provide the optimal immigration experience for corporate clients seeking to hire global talent. Whether you are a business looking to hire foreign national talent or an employee going through the complex immigration process, our software platform, Voyager, makes the experience simple and transparent. As an all-in-one immigration program management platform, Voyager improves your employee experience and allows you to seamlessly onboard and manage foreign national talent.

-  Immigration Program Dashboard
-  Centralized Immigration Information & Data Storage
-  Efficient Workflows for Faster Processing
-  Knowledge Center

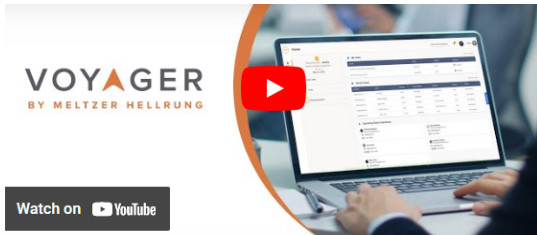

Matthew Meltzer
Co-Founder and Partner

"We have launched Voyager to ensure that we deliver on our promise of service that is transparent, easy to understand and fast. Voyager will allow us to continue to improve the employee experience while also giving company representatives a tool that streamlines their immigration program management."

Voyager improves the employee experience.

Our platform makes the immigration process easy for everyone involved: companies, their HR teams and foreign national employees. With Voyager, you will experience:

- Transparency along the entire immigration process
- Optimized and efficient workflows
- All-in-one immigration program management
- And more...
