Vivid Standard is Now Available to Premium Users

- Vivid Standard Basemap

  – **Global Availability:** Covers the global landmass, except Greenland and Antarctica

  – **Spatially Accurate:** 5 m CE90 spatial accuracy

  – **Stunning Visual Appeal:** Crisp, smooth coverage with 50 cm resolution

  – **Reliable Consistency:** Textural and year-over-year consistency for seamless ongoing workflow integrations

  – **Automatic Updates:** Updated annually

  – **Flexible Access Options:** Stream online or download for offline use via SecureWatch

- Imagery Basemaps in SecureWatch Premium

  – The new Vivid Standard basemap is being added to **Premium SecureWatch** subscriptions between now and March 31, 2021

  – Between now and March 31, Premium users will notice their "Metro" imagery account layer will be renamed to "Basemaps"

  – Both the preexisting Metro basemap products and the new Vivid Standard basemap products will be available in the "Basemaps" imagery account layer

The Vivid Standard imagery basemap is being added to all SecureWatch Premium accounts. Vivid Standard is the first commercially available global basemap with consistent 5 m CE90 accuracy. That's nearly two times more accurate than the preexisting imagery basemap available in SecureWatch.
