Need email for work? Discover Proton's [secure business email](#)

End-to-end encryption

Proton Mail is a private email service that uses open source, independently audited end-to-end encryption and zero-access encryption to secure your communications.

This protects against data breaches and ensures no one (not even Proton) can access your inbox. Only you can read your messages.

Free private email

Your data, your rules

Swiss privacy

Everyone has the right to privacy, which is why we make Proton Mail [available for free](#). You can upgrade to a paid account to access more features and support our fight for a better internet.

Proton Mail is an encrypted email service that respects privacy and puts people (not advertisers) first. Your data belongs to you, and our encryption ensures that.

Proton is incorporated and headquartered in Switzerland. This means all your data is protected by strict Swiss privacy laws and Swiss neutrality.

Your inbox, your way

Personalize your inbox and get through your messages faster.

Customize your inbox's appearance

Fully personalize your inbox by selecting your favorite layout, folder colors, and themes — including dark mode. >

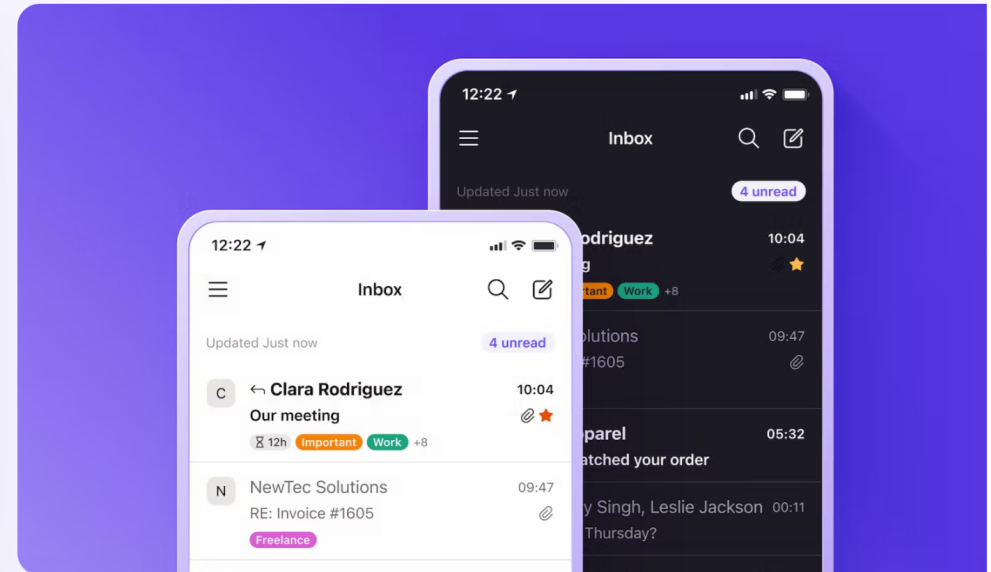

Stay organized

Create labels, folders, subfolders, and filters to help keep your inbox organized. Use filters to sort incoming emails automatically. >

Manage your online identities

Create multiple addresses linked to the same account and effortlessly send, manage, and filter emails with any of them. >

Switch to Proton in one click

Moving your existing emails, contacts, and calendars to your new secure inbox is easy. Our Easy Switch tool handles it all in a single click.

[Migrate to Proton Mail](#) >

Find anything with advanced search

Search the full contents of your emails to find the one you're looking for. It all happens on your device, and your data is always encrypted.

Quickly unsubscribe from newsletters

Keep your encrypted inbox clutter-free and remove yourself from mailing lists with one click.

Your own address with your own domain name

Set up addresses with your own domain name for a personalized email address or get a @proton.me address.

Work faster with keyboard shortcuts

Designed to be intuitive, our optimized keyboard shortcuts help you get things done faster.

Use your favorite email client

With Proton Mail Bridge, you can use desktop clients via IMAP/SMTP like Microsoft Outlook, Apple Mail, or Mozilla Thunderbird while benefiting from Proton Mail's end-to-end encryption.
