Get documents and forms signed. Easily. Securely. Anywhere.

Adobe Acrobat Sign lets you e-sign documents and forms, send them to others for e-signature, track responses in real time and get signatures instantly with in-person signing. It even lets you work offline and syncs automatically when you're back online.

This app is a mobile companion for the Adobe Acrobat Sign e-signature service. With it, you'll get an electronic signature solution you can trust, from the global leader in secure digital documents for over 25 years. Adobe Acrobat Sign is used by businesses of all sizes — including Fortune 1000 companies, healthcare organizations and financial institutions — to accelerate critical business processes in Sales, HR, Legal, and Operations.

SIGN DOCUMENTS ON THE GO

- Open and sign documents instantly.
- Easily read documents before signing with Reading Mode.
- Sign directly on the screen with your finger or stylus.
- Sign or click to approve a document sent by others.
- Delegate signing to another person or reject a signing request.
- Save partially filled forms to complete at a more convenient time.
- Sign documents offline. Adobe Acrobat Sign syncs automatically when you're back online.

GET SIGNATURES FROM OTHERS
- Send documents for signature from your online document library, your device or email attachments.
- Work with documents from Google Drive, Box, Dropbox or Adobe Document Cloud.
- Use your iPad or iPhone to get signatures in person when meeting a client.
- Choose a language for the signer's experience.

STORE AND MANAGE YOUR DOCUMENTS
- Track progress and manage agreements with real-time status updates.
- Send reminders to people who haven't signed yet.
- View agreements stored in your online account.
- All parties get a certified copy of the signed document automatically by email.

LEGALLY BINDING AND SECURE
- Adobe Acrobat Sign is compliant with e-signature laws around the world, including the U.S. ESIGN Act and the European Union eIDAS Regulation.
- Signed documents are encrypted and saved as Certified PDFs. Recipients can validate document authenticity.
- Each transaction includes a complete audit trail detailing events and actions. Signer geolocation information can also be added.
