The Massif® Cirrus High Loft Jacket is an extreme cold weather layer, worn when protection is needed from the most challenging environments.

Details Tech Sheet Specs Features Size Chart - Men's Alpha
The Massif® Cirrus High Loft Jacket is an extreme cold weather layer, worn when protection is needed from the most challenging environments. Advanced materials and design decrease weight and bulk and increase durability. We streamlined functionality to provide you with ultimate performance. With a helmet-compatible hood and drawcords throughout, you'll be able to keep the warmth in and the cold out. Warm when wet technology keeps you functioning comfortably even in the coldest weather conditions.
