CONSTRUCTION

We leverage technology with industry best practices to provide unmatched construction to the Southwest.

We strive to provide the highest value as your contracting partner while providing fair and economical cost solutions. We will provide your team with REAL-TIME BUDGETING information throughout construction to ensure project delivery on-time and on-budget. We will provide a cost analysis approach while evaluating VALUE ENGINEERING opportunities as a true construction partner for your project.

CONSTRUCTION

VIRTUAL DESIGN & FABRICATION

Modeling (BIM), Corbins provides unmatched 3D modeling and 3D modeling-to-fabrication services for: Sub Contractors, General Contractors, Architects & Engineers, & Facility Owners. We provide virtual construction services world-wide and fabrication services in the Southwest.

By effectively leveraging BIM, we are able to increase collaboration with everyone involved at the design stage before boots hit the ground. This increases pre-planning and communication early in the project reduces waste while creating Lean project delivery.

Our fabrication services add value with proven constructability, cost control, speed-to-market, and sustainability with our in-house 23,000 sf fabrication facility.

VIRTUAL DESIGN & FABRICATION

FACILITY SERVICES & SUPPORT

As your full-service electrical partner, our customer relationships extend beyond electrical construction. Corbins provides electrical install and maintenance services, allowing you to focus on your facility, business and what you do best.

- Emergency Coverage
- Preventative Maintenance
- Asset Protection Services
