I like using it once a week, it's clean the teeth Mondays here. I wish i could see improvement on that darn plaque but will settle for better breath for now.,

12 yr old dog

I have used brushes and dental sticks her entire life. This by far is the easiest application. She actually lets me get into the back corners of her very tiny mouth. It's still not a perfect application with a squirming dog but this product definitely makes it better.

does this even work?

My dog doesn't like it, its hard to apply. she licks the whole time while I put it on and it makes me wonder what even stays on. Her breath still smells bad... I don't think this product is working too well.

Wow! A huge difference on my old dog's teeth!

Reviewed in the United States us on July 18, 2022

My 15 year old dog has HORRIBLE teeth and will not put up with brushing, tooth wipes, or even dental treats. I've been using this twice a week for two weeks now, and her teeth actually look a lot better already!! She's a little stubborn about me actually getting it on her gums, but she's just as stubborn with tooth-brushing, which you would certainly have to do more often to get the results I'm seeing. I don't normally leave reviews, but this stuff has worked crazy well that I just had to!
